

SUPARCO BUSINESS SOLUTIONS

3-Channel Coaxial Cavity Multiplexer SMA-F Interface

Technical Specifications

Frequency: S-Band

No of Channels: 3

Channel Bandwidth: ≥ 20 MHz

Insertion loss: < 2.5 dB

Product Description

3-Channel S-band Multiplexer combines the power of individual RF channels to form a combined signal for transmission.

Channel frequencies, bandwidth, isolation band and isolations are designed upon user requirement.

Designed according to mil. standards and space standards.
