

SUPARCO BUSINESS SOLUTIONS

Coaxial Cavity

Channel Bandwidth \geq 250 MHz | SMA-F Interface

Technical Specifications

- Frequency Range: Ku- band (15GHz-18GHz)
- Insertion Loss (Max): < 1.5 dB
- VSWR: 1:1.4
- Temperature: -20 to 60°C
- Vibrations: 10g RMS
- Shock: 70g

Product Description

- ★ High frequency filter could be used in receiver to filter out signal with uplink/downlink frequency
- ★ Frequency and bandwidth could be customized
- ★ Developed according to mil. Standards and space standards
- ★ Qualified for harsh environmental conditions
