

# SUPARCO BUSINESS SOLUTIONS

## Ka-Band Waveguide Adapter

### Technical Specifications

- Frequency Range: 25-27 GHz
- Passband Bandwidth: 500 MHz
- Insertion Loss: < 1 dB
- VSWR: 1.25:1
- Temperature: -10 ~ 60 °C
- Waveguide interface: WR 34

### Product Description

- ★ Designed to provide SMA to waveguide interface
- ★ Could be customized according to required frequency range
- ★ Developed according to mil. standards and space standards
- ★ Qualified for use in harsh environment.
